## MARTIN MILLER'S GIN

A gin beyond expectation! Martin Miller's Gin is distilled in England in a pot still using two separate distillations which imparts a unique balance of citrus and juniper. By distilling the citrus botanicals separately to the earthier it creates a better balance between the two, allowing the citrus flavours to shine through, thus giving the gin a refreshing, modern twist on tradition. It is blended to strength with Icelandic spring water which gives Martin Miller's Gin its gentle bouquet and trademark softness.
